Experience

Unified Mentor Pvt. Ltd. — *Full Stack Developer Intern* April 2026 – July 2026

- Developed and maintained web applications using MongoDB, React js , Express js ,Node js
 - Participated in code reviews and contributed to improving application performance
 - Built **SwapStyle** a *MERN* stack application to sustain clothing and save environment
-

SUMMARY

MERN stack developer with hands-on experience building scalable full-stack applications and real-time systems. Skilled in designing REST APIs, implementing authentication systems, and developing production-style architectures. Focused on performance, scalability, and clean UI/UX.

SKILLS

Languages: JavaScript (ES6+)

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Context API, React Query ,axios

Backend: Node.js, Express.js, REST APIs, JWT, OAuth ,Agenda , bcryptjs , etc.

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, Vercel

Other: Socket.IO, MVC Architecture, Redis (Token Blacklisting)

PROJECTS

SwapStyle – Sustainable Clothing Exchange Platform (MERN)

[\[LIVE LINK\]](#) | [Github](#)

- Built a full-stack platform enabling users to list, discover, and swap clothing items
- Implemented secure authentication using JWT, Google OAuth, cookies, and Redis token blacklisting
- Designed complete swap lifecycle system (pending → accepted → shipped → completed) with validations
- Developed real-time chat using Socket.IO with message persistence and image sharing
- Integrated location-based discovery using geocoding APIs and geo queries
- Built AI-based clothing valuation system with fallback scoring logic
- Structured scalable backend with modular services, controllers, and middleware
- Optimized performance using pagination and efficient database queries

JEERA – Real-Time Collaboration Platform

[Github](#)

- Built real-time collaboration system using Socket.IO for low-latency updates
 - Optimized data fetching with React Query to reduce redundant API calls
 - Designed modular backend architecture for scalability
 - Implemented JWT + Google OAuth authentication with secure sessions
-

EDUCATION

ISC Class 12 (PCM + Computer Science)

Nirmala Convent School, Ujjain
